	The second secon			
	The following Assessment			
25X1 *	The following transports of equipment the Soviet Union at the Krallevo arsenal:	have been re	seivod from	
25X1				
25X1	a. From Smederevo: 12 rail my cars of aerial to Russian model 1916, 16 32 cm., weight 500 keep nine carloads of ar	パジモロ うこくち からもらから	ma'l & bass	
25X1	77 mm.	tillery ammunities ammunition for a	on Consinue	
25X1	7 man six carroads of	Tille ammunition	3. Richard and	
25X1	model; two carleads of selephone wire, German	carloads of telep	ohones, German	
·	b. From Belgrade: 17 carlo ds of Russian semi-au two carloads of hand are ades. German.	tomatic rifles n	1030.	
25X1	two carloads of hand grenades. German: one ca	rload of Russian	pistols,	
2,	Russian officers together with German technicians with a new mine at the marine arranged in School		4	
	with a new mine at the marine are sal in Sibenik.	This mine, a Ger	king tests	
	tion of March 1945, can be laid from the coast and It is propelled electrically with a built-in dynamic		adic waves.	
25X1 3.	Preparations along the Advistic Coast			
There is a continuous traffic of transports with a heavily armed escort on the railway stretch from Zagreb to Susak. It is impossible to ascertain what is being transported, since low cars which transports.				
	is being transported, since low care which are as	mossible to asce	rtain what	
	contain new coastal game for pottorice miles	_	they	
Susak-Kavlji and the Clobin-I lase region. The road from Ogulin to Senj is likewise under military control. Presumably a coastal fortification will be built along the Planinghi and rith the				
1	be built along the Planinski canal with the attended	tal fortification	n wiu.
